Brian Keith Alford,

:

Case No. 3:21-cv-01123

Plaintiff,

: Judge James G. Carr

Robert Zilles, et al.,

v.

Magistrate Judge Darrell A. Clay

Defendants.

DECLARATION OF AMANDA HAYES, HEALTH CARE ADMINISTRATOR

I, Amanda Hayes, pursuant to 28 U.S.C. 1746, make this unsworn declaration, under the penalty of perjury and declare that the statements made below are true:

- 1. I have personal knowledge of the information set forth in this unsworn declaration, and I am competent to testify as to the matters stated herein.
- 2. I am currently employed by the Ohio Department of Rehabilitation and Correction ("ODRC") as the Health Care Administrator of Toledo Correctional Institution (ToCI). I have worked approximately 11 years for ODRC. I have been the Health Care Administrator for approximately 2 years.
- 3. I am a licensed registered nurse.
- 4. As part of my job duties as the Health Care Administrator, I serve as my institution's health authority for the day-to-day operations of the medical services program. I deal directly with medical staffing schedules, medical staffing issues, the implementation of policies, budgets, review and address patient-inmate complaints, concerns or questions.
- 5. I am an approved records custodian of the records of incarcerated individuals' medical records. Said records are indexed by, inter alia, the name and number of the incarcerated individual. These documents are maintained as part of the ordinary course of business and operations of the institution.

- 6. In the course of my duties, I am familiar with and able to testify about the course of medical care provided to Plaintiff, Brian K. Alford.
- 7. Collegial Review occurs when the Office of Correctional Health Care performs a medical collaborative review of an individual patient when requested by an institutional advanced level provider (ALP). It is governed by Policy 68-MED-14.
- 8. IP Alford has a complex medical history that includes vitamin B12 deficiency, peripheral sensory neuropathy, hypertension, eye disease, hepatitis/liver disease, carpal tunnel syndrome, cervical spondylosis, benign prostatic hyperplasia (BPH), lumbar disc disorder, and ulnar nerve injury.
- 9. Vitamin B12 deficiency is a treatable condition that happens when the patient is not consuming enough vitamin B12 or the patient's body is not absorbing it properly. Vitamin B12 deficiency can cause physical, neurological and psychological symptoms. Neurological symptoms can include numbness or tingling in the patient's hands and feet. More severe side effects of vitamin B12 deficiency include peripheral neuropathy; damage to the spinal cord, paralysis, bowel and/or urinary incontinence, erectile dysfunction, depression, paranoia and delusions, and memory loss.
- 10. Peripheral neuropathy happens when the nerves that are located outside of the brain and spinal cord (peripheral nerves) are damaged. This condition often causes weakness, numbness and pain, usually in the hands and feet. While peripheral neuropathy caused from a vitamin B12 deficiency can reverse itself with proper treatment, nerve damage may be permanent.
- 11. Plaintiff was diagnosed with peripheral sensory neuropathy on September 8, 2020, related to his vitamin B12 deficiency. (BS DRC000448). He has received consistent care for his vitamin B12 deficiency since his diagnosis. It appears that the peripheral neuropathy may be permanent. (BS DRC 000351; DRC 000454).
- 12. As of August 6, 2020, Plaintiff had access to tennis shoes as a replacement for the boots issued in 2018. (BS DRC 000494)
- 13. On July 19, 2021, pursuant to Pursuant to Policy 68-MED-14, Dr. Lawrence consulted with Collegial Review. Collegial Review determined that a pair of tennis shoes with high ankle support would suffice for any gait instability, but that boots are not necessary or indicated. (BS DRC 000200; DRC 000121; DRC 000200).
- 14. Plaintiff requested boots on multiple occasions, even though he was advised that the same violated security protocols in the prison. (BS DRC 000254). He sought boots through medical services on the following occasions:
 - a. Date of Service: 8/6/2020 (BS DRC 000494)

- b. Date of Service: 8/27/2020 (BS DRC 0000472)
- c. Date of Service: 10/15/2020 (BS DRC 0000374)
- d. Date of Service: 11/18/2020 (BS DRC 0000350)
- e. Date of Service: 3/19/2021(BS DRC 0000258)
- f. Date of Service: 3/31/2021(BS DRC 0000254)
- g. Date of Service: 7/19/2021 (BS DRC 000201)
- h. Date of Service: 9/27/2021 (BS DRC 000154)
- i. Date of Service: 10/29/2021 (BS DRC 000121)
- 15. Derek Burkhart did not provide direct medical treatment to IP Alford.
- I, Amanda Hayes, pursuant to 28 U.S.C. § 1746, make this unsworn declaration under penalty of perjury and declare that the foregoing statements are true.

Executed on this 27 day of February 2025.

Amanda Hayes

Health Care Administrator

Corneal Elber Leye (8/28/14)

Chief Complaint

 Varicose vain/numbness in left leg/ L Eye pain and dryness/Left arm pain and numbness.

History of Present Illness

NAF - Musculoskeletal System:

History of Presenting Illness: Pt presents to IHS with second complaint of DVT concerns since his arrival to ToCI. He feels the area of concern has grown and gotten worse since initially assessed on 12-27-17., Onset: -add other notes Chronic complaint (second reporting since transfer to ToCI-see NSC 12-27 -17), Location: -add notes Left upper thigh, Aggravating factors: -add notes positioning, walking etc, Symptoms: moderate pain worsening with movement, swelling, complains of neurologic symptoms (numbness, tingling, sensory loss, or localized weakness). Significant Medical History: , Arthritis No, Muscular injury No, Trauma (old or new) Yes Hx of MVA and assaults, Sickle cell anemia No, Strenuous activity No, Autoimmune disease No. Objective/Physical Assessment: , General Appearance: localized swelling near the site of the injury Minor swelling to left upper thigh, not any different from last assessment. Good PP, No color or temperature differences seen to right or left foot/legs. Negative homman's sign, Neurovascular exam: distal pulses present and equal bilaterally, capillary refill is less than or equal to 2 seconds, skin is warm and pink, sensation to light touch is equal bilaterally, patient is able to detect movement of a digit (proprioception), patient is able to wiggle fingers and toes, -add other notes No temperature or color difference seen. Nursing Assessment: , Nursing Diagnosis Alteration in Comfort R/T probable varicose veins. Nursing Care Plan: , Referred immediately to ALP-patient routine referral secondary to frequency of complaints and no relief from conservative therapy. Patient Education: , Patient verbalizes understanding of-signs and symptoms needing attention including numbness, decreased function, increased pain, and elevated temperature, the need for treatment and follow-up care, advised to increase exercise like walking and jogging but not weight lifting. Disposition: , Action taken- No restrictions on activity, Referred to physician or ALP: 01/29/2018, Advanced provider appointment: 01/30/2018 (medical default). NAF - HEENT Complaints:

History of Presenting Illness: , Onset present all the time, Aggravating factors -add other notes Pt has an extensive occular history (see notes from optometry), Symptoms itchy eyes, ache or pressure behind eye(s), mild phtophobia, eye pain, headache, dry eyes. Significant Medical History: , Documented weight loss No, Tobacco use No, Asthma/COPD No, History of TB infection No, Diabetes No, Cardiac disease Yes, HIV/splenectomy No, Seasonal allergies Yes. Objective/Physical Assessment: , Neck; supple; mild or no cervical lymphadenopathy, Throat: -add other notes no abnormals seen, Lungs: Breath sounds clear throughout, Eyes: Mild conjunctivitis (redness to sclera), Ears: normal, Nose: -add other notes no abnormals seen. Nursing Assessment: , Nursing Diagnosis Alteration in comfort R/T dry, painful eyes. Nursing Care Plan: , Referred to ALP-patient has Optometry in house toady. Secondary to extensive ocular history, pt to be referred to eye Dr today for his concerns rather than waiting until May as already scheduled, Nursing Interventions- -add other nursing interventions in notes education on POC to include optometry visit early if warranted by ALP. Patient Education: , Patient verbalizes understanding of-medication side effects, returning to sick call if symptoms do not improve in 7 days. Disposition: , Action taken- No

1. Sinus Congestion, Left Leg numbness and tingling, Left hand Numbness, Burning with urination, Wants Harvoni for Tx of Hep C

History of Present Iliness

NAF - HEENT Complaints:

History of Presenting Illness: , Onset gradual pt states that he has had sinus congestion for several months. As soon as he stops taking sinus tablets he gets stuffed up again, Relieved by Chlorphen, Symptoms nasal stuffiness, nasal itching, sneezing, dry, non-productive cough, itchy throat, sore throat. Significant Medical History: , Documented weight loss No, Tobacco use No, Asthma/COPD No, History of TB infection No, Diabetes No, Cardiac disease No HTN, HIV/splenectomy No, Seasonal allergies Yes. Objective/Physical Assessment: , Neck: supple; mild or no cervical lymphadenopathy, Throat: slightly reddened, Lungs: Breath sounds clear throughout, Ears: normal, Nose: clear, thin nasal drainage red. Nursing Assessment: , Nursing Diagnosis Alteration in comfort R/T sinus congestion. Nursing Care Plan: , Nursing Interventions- CTM 1 tab twice daily for 3 days as needed for nasal congestion/drainage; itchy, watery eyes and sneezing pt states that he does not have money for commissary due to fees withdrawn from his account. Patient Education: , Patient verbalizes understanding of- importance of smoking cessation, medication side effects, increasing fluid intake, getting rest. Disposition: , Action taken- No restrictions on activities, Advanced provider appointment: 02/22/2018.

NAF-Genitourinary System:

History of Presenting Illness , Onset sudden, Aggravating factors "burns when I pee" slow to start stream, increased frequency, sometimes he is unable to empty bladder, Symptoms moderate-severe pain with urination. Significant Medical History: , Prostatitis No, Abdominal trauma: No, Benign Prostatic Hypertrophy: No, Chronic NSAID use: No, Diabetes: No, Genital warts: No, GU surgery: No, Hernia: No, Renal Calculi: No, Renal disease: No, Scrotal trauma: No, Sexual activity: Yes, Strenous physical activity: No. Objective/Physical Assessment: , General Appearance: VS and appearance within normal limits, HEENT: Neck supple, Chest/Lungs: Clear to auscultation, Heart: Regular rate and rhythm, no extra sounds, Abdomen: soft, Testing/Dipstick Urinalysis: add results. Nursing Assessment , Nursing Diagnosis Acute pain R/T burning with urination. Nursing Care Plan: , Routine referral to ALP-patient has recurrent urinary tract infection pt states that he has a history of bladder infections, Nursing Interventions urinalysis. Patient Education: , Patient verbalizes understanding of- Increasing fluid intake (H2O)-small amounts frequently, Avoiding caffeine and alcohol, Long term use of NSAIDs may counteract HTN medication and adversely effect kidney function, Voiding frequently throughout the day, Counseling about high risk behaviors, Returning to clinic if symptoms persist or worsen within 3 days. Disposition: . NSG/RT/PT-SOAP:

Subjective "Requesting ultrasound, blood work, and treatment with Harvoni for Hep C, viral load over 1 million up to 6 million." Left leg still numb, stings, tingling." "Left hand numb twitch in both shoulders since 2015". Objective Pt has unresolved complaint of numbness and tingling. Nursing Assessment Knowledge deficit R/T plan of care for Hepatitis C. Plan Pt put on DSC to see Dr. 02/22/18.

Progress Notes: Kathleen A Meehan-delaCruz-Phys Adm

03/01/2018

- 1. B/L shoulder intermittent and progressive twitching and left hand numbness constant and worsening in 1-3rd digits without weakness or pain x 2-3 years. Notes that he injured his neck many years ago while lifting weights while incarcerated. He had pain in his neck for several years but it resolved. Now he has above sx but no significant neck pain proper. He does have abol c-spine c-spine
- 2. Complains of intermittent stinging with urination as well as increased nocturia with hesitancy. No dribbling. Low back pain for 2 days since these sx
- 3. Wants treatment for Harvoni. States that he gets intermittent LUQ pain which seems to travel to center of abdomen and is releived when he passes gas. No change in color of stool. No blood in stool. States that he does get nauseated and vomits once or twice a week. Is concerned that his weight is decreasing.
- 4. Left anterior thigh burning and tingling now constant, not worse or better with any meds or activity. No saddle numbness. No chronic urinary retention. Normal stooling habits.

Progress Notes: Mark A Bigler, MD

- 1. Continued stomach issues/vision changes
- 2. Continued leg pain

History of Present Illness

some serious problems with eyes, been using artificial tears, eye, left eye, since 2015, deep throbbing pain, sees a flash in the center, previous hx of retinal tear in left eye(repaired), corneal scar, saw eye doctor recently, told things look the same, has chronic discharge in left eye, "floating membrane", says vision in right eye is getting worse, been seeing in left eye, lot black dots which is how retinal tear began

is seeing flashes of light, not sure which eye, even in dark room, has a "flashing pulse in the center vision of left eye", says has double vision in left eye at times

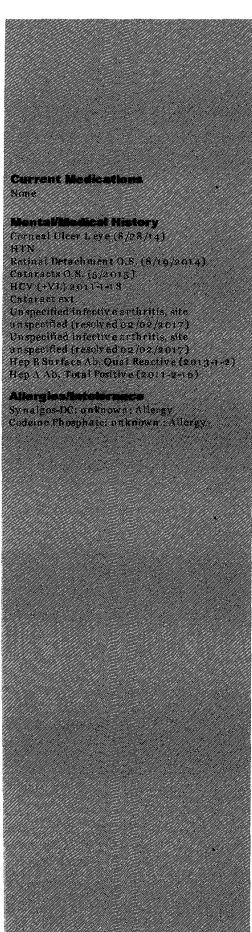

2. Stomach: alwys had a pain, in lower left side, now down in middle, then some epigastric, some nausea, dull sharp, burning epigastric pain

no vomiting, having lot of noise/gas, not taking anything for stomach, says was dx'd with irritable bowel syndrome while back, thinks is lactose intolerant, nothing seems to make it worse, just flares up out of nowhere, wonders if gallbladder/appendix, not affected by food or eating, last three days, when eats, within 15 to 20 minutes has to use the bathroom, but not diarrhea

3. Left leg, thigh, stinging numbness, medial thigh, down to knee, sometimes to lower leg, on inside, been about a year, started out feeling kidn of funny "like a pulled muscle", use to do squats, nothing seems to make it worse, nothing makes it better.

Examination

General Examination:

GENERAL APPEARANCE: in no acute distress, pleasant.

FACE: Within Normal Limits.

EYES: eyes normal, no discharge, fundi benign.

NECK/THY ROID: no carotid bruit, no lymphadenopathy, supple, thyroid normal.

CARDIOVASCULAR: normal S1 and S2, regular rate and rhythm, no murmur or gallop.

RESPIRATORY: clear to auscultation bilaterally, no wheezes, rhonchi, rales. GASTROINTESTINAL: normal bowels sounds, no guarding, no bruit, no masses palpated, no tenderness.

NEUROLOGIC EXAM: non-focal exam, DTRs 1-2+ in all 4 extremities, normal leg strength, normal sensation in legs.

EXTREMITIES: no clubbing, no edema.

LY MPH NODES: normal, supraclavicular node, no cervical adenopathy. PSY CH affect normal.

Assessments

- 1. Unspecified subjective visual disturbance 368.10 (Primary)
- 2. Abdominal pain, epigastric 789.06
- 3. Abdominal pain, lest upper quadrant 789.02
- 4. Intervertebral lumbar disc disorder with myelopathy, lumbar region 722.73, possible dx

Treatment

1. Unspecified subjective visual disturbance

with prior history of retinal problems, will have him see the optometrist, does not appear to have an acute problem.

2. Abdominal pain, epigastric

abdominal pain, does not seem to be from gallbladder or appendix which was concerning to him, possibly does have some irritable bowel, maybe even some lactose intolerance per him, will have him see dietician about increasing fiber in his diet, avoidance of dairy.

3. Abdominal pain, left upper quadrant as above.

4. Intervertebral lumbar disc disorder with myelopathy, lumbar region

lumbar x-ray showed some degenerative changes without any fractures, discussed that seems to be a chronic, non-progressive problem and not a DVT which he continues to worry about and has been counseled about before, patient voices understanding of all plans, continue otc meds per instructions, exercises previously discussed at prior visit

suggested if he has several problems, to try and come in and discuss one at a time LUMBAR SPINE AP and LAT FINDINGS: There are degenerative changes of the spine. No fracture or

subluxation seen. There is osseous demineralization. Soft tissues are grossly unremarkable.

CONCLUSION: Degenerative changes. No fracture.

Chief Complaint

1. Return OMT - Ophthalmology

History of Present Illness

Been having problems with left eye, distorted vision, center field of vision, went to FMC and continued ordered drops, and rec f/u with OSU retinal clinic. Also says has cararact in right eye. Has floaters in both eyes.

Wonders about blood work that was ordered.

Also says had an EMG scheduled for April or May, had to turn it down because had a legal brief due in court about that time. Was ordered because has "cervical nerve damage", having numbness in left hand fingers, one to three, twitching in both shoulders, was left, now both.

Chief Complaint

1. Multiple Complaints

History of Present Illness

NAF - Skin Complaints:

History of Presenting Illness: , Location bilateral feet, Symptoms itchy rash. Significant Medical History: , Allergies Yes, Asthma No, Diabetes No, Chemical exposure No, Exposure to parasites No, Eczema No, Medications No, Peripheral vascular disease No, Psoriasis' No, Recent tattoos No, Hives / Rashes No, Staph Infection No. Objective/Physical Assessment: , General Appearance: WNL, Appearance/Skin: cracking, peeling eruption of feet especially in toe webs, Respiratory/Lungs: lungs clear to auscultation. Nursing Assessment: , Nursing Diagnosis: Impaired Skin Integrity R/T: athletes foot. Nursing Care Plan: , Nursing Interventions- Pt given Clotrimazole. Patient Education: , Patient verbalizes understanding of- signs and symptoms of infection, returning to clinic if signs and symptoms of infection appear. maintaining good hygiene/handwashing, returning to sick call if symptoms do not improve in 14 days, do not pick at affected area, take/apply medications as prescribed, avoid irritating soaps and detergents, keep affected area warm and dry. Disposition: , Action taken- No restrictions on activities, Return to clinic if no improvement by: 07/10/2018.

NAF - HEENT Complaints:

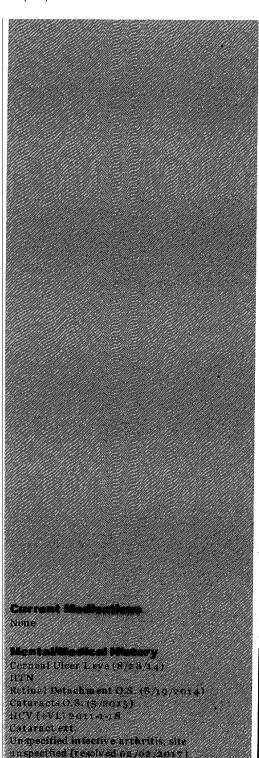

llistory of Presenting Illness: , Onset chronic seasonal allergies, Symptoms sneezing, coughing. Significant Medical History: , Documented weight loss No, Tobacco use No, Asthma/COPD No, History of TB infection No, Diabetes No, Cardiac disease No, HIV/splenectomy No, Seasonal allergies Yes. Objective/Physical Assessment: , Face: WNL, Neck: WNL, Throat: WNL, Lungs: Breath sounds clear throughout, Eyes: WNL, Ears: WNL, Nose: WNL. Nursing Assessment: , Nursing Diagnosis Alteration in comfort R/T chronic seasonal allergies, Additional Assessment notes: Pt states unable to purchase anything from commissary due to legal filings. Nursing Care Plan: , Nursing Interventions- CTM 1 tab twice daily for 3 days as needed for nasal congestion/drainage; itchy, watery eyes and sneezing. Patient Education: , Patient verbalizes understanding of-medication side effects, increasing fluid intake, getting rest. Disposition: , Action taken- No restrictions on activities, Return to clinic if no improvement by: 07/10/2018.

NSG/RT/PT-SOAP:

Subjective Pt complains of ongoing numbness and tingling in his left arm/hand. Objective Pt has equal strong hand grasps pt states he missed his scheduled EMG due to legal briefs and would like to reschedule it. Nursing Assessment alteration in comfort r/t nucrological pain. Plan will see if appointment has been rescheduled.

Progress Notes: Mark A Bigler, MD

Chief Complaint

1. Discuss R/S of EMG

History of Present Illness

:

Wanted to discuss rescheduling EMG.

Wonders about some type of sinus infection/respiratory: having dry cough, in chest, getting some out of nose, but mostly clogged up, has chronic allergies, some upper tooth pain, been going on about a week, about the same, trying to get better, would rate it at 8 or 9. Been taking "CTM", little allergy pill and claritin. Was given some mucinex yesterday.

EMG: had a legal brief due when it was scheduled, has that done, been having numbness, stinging in left arm from fingers up to neck, since about 2015, seems to be getting worse, nothing seems to make it worse or better. Twitching in both shoulders. Per visit of 3/1/18: 1. B/L shoulder intermittent and progressive twitching and left hand numbness constant and worsening in 1-3rd digits without weakness or pain x 2-3 years. Notes that he injured his neck many years ago while lifting weights while incarcerated. He had pain in his neck for several years but it resolved. Now he has above sx but no significant neck pain proper. He does have abol c-spine c-spine xray suggesting of B/L neural foraminal impingement.

1. OMT Left forearm and Opthalmology

History of Present Illness

_:

Had emg that showed CTS on left, showed nerve damage below elbow, had use of force, 12/2015, was cuffed in this area, been bothering ever since. Started out with tingling in fingers, first three fingers are numb most of the time. Has muscle twitching in both shoulders. Left hand: seems a little weaker, sometimes has trouble holding things a little with left,

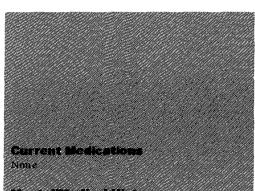

Also was seen by opthalmology 8/16, due to visual problems. Says they did laser on right eye. LEFT EYE: retinal detachment and repair 2014, f/u the next week had a corneal scar, got admitted and given ath drops q 2 hours, June 2015 replaced lens. Since then been having pain, dryness, throbbing, a flashing pulse in center vision of lest eye.

Wonders about getting a test for Histoplasmosis, says was told some of his eye problems, in the left could be ocular histoplasmosis. Was at London Correctional 2/24/16 to 7/11/207, thinks was exposed to histoplasmosis, bad problem with pigeons everywhere.

been having a lot of chest congestion, mucuous, for few months. still coughling, bringing up stuff, every day.

Chief Complaint

1. CCC HTN, HCV

History of Present Illness

NSG-CCC Nursing Questions:

Medication Compliance: 100% - never misses a dose.

Dietary Compliance: Compliant good appetite. Eats the state trays and commissary most days. .

Education: Diet no diet restrictions. Encouraged to make healthy food choices. Encouraged lower sodium food choices due to HTN dx.

, Exercise denies any Physical activity. Patient encouraged to add some cardio and stretching daily routine several times weekly. , Tobacco Cessation

, ETOH Cessation.

Medication: Side effects reviewed

, No adverse effects.

MED CCCF/U Cardiovascular/Hypertension:

Interval History:

Chest pain- no

Shortness of Breath- no

Palpitations- no

Peripheral edema- no

Syncope/dizziness- no

Orthopnea- no

Ileadache- no

Nocturia- no

Medication compliance- good

Side effects or problems with medications- none

Patient Education:

Cardiac/HTN CCC patient education provided- High blood pressure disease process/diagnosis, Treatment planning and patient responsibilities, Diet (DASH) and exercise, Tobacco cessation, Prevention and risk factors, Complications of Hypertension, Continuity of Care-Release/Returning to home

Advanced directives discussed at this visit? Yes

Action: Patient does not want an advanced directive.

MED CCC F/U Liver Disease:

Interval History:

New symptoms-none

Is the patient recieving Hep Ctreatment? No

APRI Score- 0.633

Adherence to medical treatment plan- yes

Depression or suicidal thoughts- no

Adherence to dietary plan- n/a

Smoking- no

Exercise- track walking

Patient Education:

HCV CCC education provided to patient- HCV disease process, Treatment planning and patient responsibilities, Diet and exercise, Tobacco cessation, Prevention and risk factors, Complications of HCV, Continuity of Care-Release/Returning to home

Advanced directives discussed at this visit? Yes

Action: Patient does not want an advanced directive.

Examination

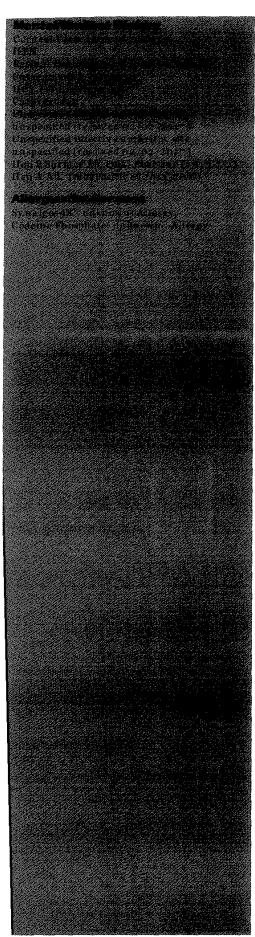

General Examination:

GENERAL APPEARANCE: alert NAD Gait steady, Body positioning minimally antalgic with positioning self on exam table..

EYES: conjunctiva and sclera clear, extra ocular muscles intact (EOMI) bilaterally.

ORAL CAVITY: moist mucous membranes.

NECK/THY ROID: no carotid bruit, no lymphadenopathy, supple, thyroid normal

CARDIOVASCULAR: normal S1 and S2, regular rate and rhythm, no murmur or gallop.

RESPIRATORY: clear to auscultation bilaterally, no wheezes, rhonchi, rales. GASTROINTESTINAL: normal bowels sounds, no guarding, no masses palpated, no tenderness No hepatosplenomegaly.

NEUROLOGIC EXAM: non-focal exam.

SKIN: no rash or skin lesions. EXTREMITIES: no edema.

PERIPHERAL PULSES: post tib normal (2+) bilaterally.

Assessments

- 1. Allergic rhinitis, cause unspecified 477.9 (Primary)
- 2. Spasm of muscle 728.85, Bilateral scapular areas
- 3. Intervertebral lumbar disc disorder with myelopathy, lumbar region 722.73, possible dx

Treatment

1. Allergic rhinitis, cause unspecified

Cold Tx choices discussed. Claritin and Chlorphen given from stock. Encouraged to increase rest. Encouraged to increase oral fluids. Good handwashing promoted. Pt verbalizes understanding of instructions.

2. Spasm of muscle

Advised to continue to stretch left arm at least BID. Pinched nerves and muscle twitched discussed. Encouraged to increase oral fluids. Good handwashing promoted .Pt verbalizes understanding of instructions.

3. Intervertebral lumbar disc disorder with myelopathy, lumbar region

Pt encouraged to also continue doing back stretches BID. And to utilize mediproxen as given from stock. Encouraged to increase oral fluids. Good handwashing promoted . Education as above Pt verbalizes understanding of instructions.

Follow Up

Note: All result statuses are Final unless otherwise noted.

Tests: (1) SARS-CoV-2, NAA (139900)

SARS-CoV-2, NAA Not Detected Not Detected

This nucleic acid amplification test was developed and its

characteristics determined by LabCorp Laboratories. Nucleic acid amplification tests include RT-PCR and TMA. This test has not been FDA cleared or approved. This test has been authorized by FDA under an Emergency Use Authorization (EUA). This test is only authorized for the duration of time the declaration that circumstances exist justifying the authorization of the emergency use of in vitro diagnostic tests for detection of SARS-CoV-2 virus and/or diagnosis of COVID-19 infection under section 564(b)(1) of the Act, 21 U.S.C. 360bbb-3(b) (1), unless the authorization is terminated or revoked sooner.

When diagnostic testing is negative, the possibility of a false negative result should be considered in the context of a patient's recent exposures and the presence of clinical signs and symptoms consistent with COVID-19. An individual without symptoms of COVID-19 and who is not shedding SARS-CoV-2 virus would expect to have a negative (not detected) result in this assay.

BRIAN KEITH ALFORD

Male DOB: 1871377715

General Medicine

Chronic Care Diagnosis: GERD IBS

Acute complaints: No

Adherent to treatment plan: Yes Medication Side Effects No

Liver Disease

Type: Hepatitis C

Is patient currently receiving hepatitis drug treatment? No

Medication treatment not indicated at this time.

Has Patient received treatment in the past? No

Nausea Yes

Comments: "periodic" Weight stable.

Vomiting No Diarrhea Yes

Comments: "Runny... How do I know I didn't look at it." Pt. vague, evasive and not forth coming when

asked assessment questions.

Edema No

Abdominal pain Yes

Comments: Pt. vague, evasive and not forth coming when asked assessment questions.

Other Symptoms No

New tattoos since last CC visit? No Drug use since last CC visit? No

Drug or Alcohol use since last CC visit? No

History: Pt. became verbally aggressive and visibly upset and refused to answer above required STI questionaire. "You've asked me the same question 3 times. Why are you asking me these questions I've been in a male prison for 21 years?!" This ALP attempted to refocus pt to complete appt. Pt. calmly advised "Things happen" in prison. CCC appt abruptly ended.

Reassurance Attempted per this ALP. Assessment and plan reviewed. Pt. voices understanding. Advised to return to medical for any new or worsening signs and symptoms.

Cardiac / Hypertension

History of coronary artery disease No

History of hypertension Yes

History of other cardiovascular issues No

Chest Pain No

Shortness of Breath No

Peripheral Edema No

Syncope / Dizziness Yes

Comments: MIId with positional changes

Headache No

Compliant with medication? Yes

Medication side effects No

" I've been getting dizzy with my meds for alongtime... Off and on since 1982"

HPI

Chief complaint: DSC to evaluate for ADA necessity for boots

History of presenting illness: Pt has peripheral neuropathy of feet, B12 deficiency, recently replaced (2020)

He has not been issued boots due to security classification, pending statement of ADA medical necessity. He states numbness in feet is getting worse, and states has balance problems, and that spinal scoliosis and circulatory problems contribute to trouble with feet. States that only boots give adequate stability.

Is there another issue? No

Physical Examination

Diabetic Foot Exam

General

Patient is alert and oriented and in no acute distress

Obese Yes

Diabetic Foot Exam

Callouses Yes

Dorsalis Pedis Pulse - Left Palpable **Dorsalis Pedis Pulse - Right** Palpable

Sensory

Sensation deficit Yes

decreased soft touch from mid legs down, absent monofilament sense in soles of feet. Decreased vibration sense in toes bilat. Decreased position sense right toe.

Motor

Weakness No.

Reflexes

Biceps Hyporeflexia

NSG Influenza Vaccine Counseling
Date of Service: 3/11/2021

BRIAN KEITH ALFORD

Male DOB: 1871377715

Encounter Context

Parent Institution at time of evaluation: Toledo Correctional Institution

Age at Time: 63 Years Old

Education:

Counseling being provided for: COVID-19 Vaccine

Vaccine Phase 1b5

The COVID-19 vaccines are designed to work with our immune systems so the body will be ready to fight the virus if we are exposed to the virus. FDA to determined that the COVID-19 vaccines meet its safety and effectiveness standards; therefore, the FDA has made these vaccines available for use in the United States under what is known as an Emergency Use Authorization (EUA). The Centers for Disease Control and Prevention (CDC) and the FDA will continue to monitor the safety of the vaccines now that they are in use. The COVID-19 vaccines currently authorized for use are highly effective in preventing COVID-19. None of the COVID-19 vaccines currently authorized for use or in development in the United States use the live virus that causes COVID-19. Although some symptoms from general reactions to the COVID-19 vaccine (side effects), including fever, body aches, and headaches-which last 1-2 days- are the same as those of a COVID-19 infection, this does not mean the vaccine causes infection but that the immune system is working.

Education and counseling provided to patient.

Patient verbalized understanding.

Patient continues to refuse vaccine after counseling.

I don't need / want it

HPI

Chief complaint: Perennial allergic rhinitis

History of presenting illness: Pt states has been diagnosed allergic perennial rhinitis and treated with allergy shots in past, has 9 allergies, including dust, mold mildew, ragweed, pollen, grass, tobacco smoke, wool. He had year round symptoms of nasal congestion, coryza, itching ears/eyes/nose, runny eyes, and some sneezing. He gets about 2 sinus infections per year as nasal burning, facial maxillary pain, and change in consistency of nasal secretions (thick or thin), without purulence, without fevers. Last sinus infection tx in July. Now states has a sinus infection x 1 month, with same symptoms, and upper respiratory. He is treated only with a few nurse samples of loratidine chlorpheniriamine. Does not have Zyrtec now but it helps allergy, symptoms. Prior tx remotely with nasal steroids, and once needed a breathing treatment. States he ordered Zyrtec from commissary last week but they were out of it. Is there another issue? No

Physical Examination

ENT

General

Normocephalic Yes

Lymphatic

Neck adenopathy No

Grossly intact and non focal, no tremors, no gait abnormalities, speech fluent.

Mental Status

Alert, oriented, answers questions appropriately

Eyes

Full extraocular motion, sclera clear, not icteric, pupils equal and round **Eyelid abnormality** No

no alergic shiners, no lacrimation. + bilat conjunctival erythema.

External Ears:

No obvious deformities

Otoscopic:

No obvious abnormalities

Nose

Nares open and clear bilaterally and without discharge.

Swollen mucosa No

Rhinorrhea No

Non-tender paranasal sinus-areas.

septal and turbinate erythema. No ulcers.

Mouth / Throat

Oral mucosa normal Yes

Integumentary

Skin is without obvious rashes or lesions.

Assessment

Assessment(s):

Perennial allergic rhinitis (ICD-477.9) (ICD10-J30.89)

Plan

Is this visit related to Pandemic? No

Is this patient a COVID-19 POSITIVE patient? No

Perennial allergic rhinitis. Pt believes he has a sinus infection for 1 month, but more likely has exacerbation of chronic allergic rhinitis. would not use antibiotic at this time.

Would benefit from continuous nasal steroid spray, (Nasacort 55 mcg per spray, start 2 sprays each nostril QD total 220 mcg daily, back off if improved). Nasacort continues to be unavailable at commissary, will request PA.

Given chlorpheniramine 8 tabs, loratidine package of 10 tabs, and will email commissary to allow refill of Zyrtec at this time.

2001 East Central Avenue Toledo, OH 43608

Toledo, OH 43608 NSG Influenza Vaccine Counseling Main: 4197267977 Date of Service: 11/5/2020

BRIAN KEITH ALFORD

Male DOB: 1871377715

Encounter Context

Parent Institution at time of evaluation: Toledo Correctional Institution

Age at Time: 63 Years Old

Education:

Associated risks of not receiving the Influenza vaccine include, but are not limited to, increased risk of the following: Morbidity risk if Influenza is contracted with COVID-19 at the same time, risk of complications from influenza such as; pneumonia, bronchitis, sinus infections, and/or ear infections. There are increased risks with Influenza of suffering from fever, chills, sore throat, muscle aches, fatigue, cough, headache and runny or stuffy nose. It is very strongly encouraged to take the Influenza vaccine to better protect you against all of the above associated risks and to better protect others around you from contracting it.

Education and counseling provided to patient.

Patient verbalized understanding.

Patient continues to refuse vaccine after counseling.

I don't need / want it

Ulcerations(s) No

Altered skin integrity Yes

Comments: right 2ne toe plantar red spot, raised. consistent with healing skin break.

Ingrown Toenail No

Hypertrophic toenail(s) Yes Monofilament Deficit Yes

Comment: tested with finger touch, decreased from ankles down.

Vibratory Exam Deficit Yes

Comments: present but decreased form ankles down bilat.

Dorsalis Pedis Pulse - Left Palpable Dorsalis Pedis Pulse - Right Diminished

Hair loss, borderline.

Exam of shoes shows wearing of insoles under great toe bilat. Boots themselves are mildly worn at the heels.

Grossly intact and non focal, no tremors, no gait abnormalities, speech fluent.

Sensory

Sensation deficit Yes

see foot exam

Mental Status

Alert, oriented, answers questions appropriately

Eyes

Full extraocular motion, sclera clear, not icteric, pupils equal and round

Integumentary

Skin is without obvious rashes or lesions.

Assessment

Plan

Is this visit related to Pandemic? No

Is this patient a COVID-19 POSITIVE patient? No

Vitamin B12 deficiency new dx, now treated orally.

Peripheral neuropathy, likely due to B12 deficiency, consider immune.

Pt needs correctly fitting boots in view of structural foot disease as neuropathy, and sin break.

Order 12 EEE boots

f/u after recheck B 12 level in 1 month (around 11/12) and decide whether to continue oral if level has improved.

Check SIEP for neuropathy in presence of Hep C.

Education Provided: Test Results

Was a new Chronic Care Enrollment added this visit? No

Ecchymosis: Yes

Assessment

Assessment(s):

Strain of muscle, fascia and tendon of lower back, initial encounter (ICD-848.8) (ICD10-S39.012A) Strain of unspecified muscle, fascia and tendon at shoulder and upper arm level, right arm, initial encounter (ICD-840.9) (ICD10-S46.911A)

contusion left flank, right shoulder.

Low back strain

Plan

Is this visit related to Pandemic? No

Is this patient a COVID-19 POSITIVE patient? No

Left hip pain from contusion, with negative xray. Based on comparison of exams, it is improving and does not require advanced imaging.

Right shoulder strain, unlikely to chnage therapy based on imaging, and will not get xray.

Low back strain.

Will provid 2 more days tramadol 100 twice daily x 2 d,

return to clinic as needed, otherwise OTC analgesics.

Incidentally informed B12 supplement will be PO, as PA for injected B12 was denied...

@ approximately 1130 I was advised by another inmate at pill call that Alfords him hurts and he can't walk. I went to his cell and he was standing in the doorway and advised that he thinks his hip is broken. There is inflammation to left hip. Medical was called and advised. Duncan went to unit to with a wheelchair and took him to medical for ALP to assess.

HPI

Chief complaint: LUQ abd pain, and requests new boots

History of presenting illness: Seen last month for these complaints. LUQ pain is better, less sharp, less frequent since taking RX Pepcid 20 mg daily.

Boots request, he states his 12 EE boots are worn out, 2 years old, and he needs size EEE. He brings his boots which show bilat minor heel lateral wear. He did not bring the insole which he states are worn out, states he washed them and left in cell. Admits nubmbness in toes as told to him on last exam, and aos left arm due to nerve injury. States he has diagnosis of circulatory probs in feet for 16 years (not listed on problem list). Vascular risk includes HTN.

Is there another issue? No

Physical Examination

Neurologic

General

Patient is alert and oriented and in no acute distress

Obese No

Diaphoretic No

Answers questions appropriately. Yes

Able to speak in full sentences. Yes

Respiratory

Use of accessory muscles No

Head

Normocephalic Yes

Extremeties

Edema No

Dorsalis Pedis Pulses - Left Palpable

Dorsalis Pedis Pulses - Right Palpable

bilat hair loss on toes

Diabetic Foot Exam

Toe deformity No Cracking No Hypertrophic toenail(s) No **Monofilament Deficit** Yes

Comment: absent in all areas of test excep 3rd toes bilat

bilat minor callus, mostly on balls of feet.

Grossly intact and non focal, no tremors, no gait abnormalities, speech fluent.

Reflexes

Biceps Normal Patellar Hyperreflexia **Achilles** Normal

Mental Status

Alert, oriented, answers questions appropriately

Eves

Full extraocular motion, sclera clear, not icteric, pupils equal and round

External Ears:

No obvious deformities

Integumentary

Skin is without obvious rashes or lesions.

Assessment

Assessment(s):

GERD (gastroesophageal reflux disease), mild (ICD-530.81) (ICD10-K21.9)

Plan

Is this visit related to Pandemic? No

Is this patient a COVID-19 POSITIVE patient? No

LUQ pain, without alarm features, likely GERD, responding to Pepcid, would continue Pepcid. He may purchase at commissary.

Numbness in toes, may have a periph neuropathy, cause not clear, will check B12 folate, TSH. Will consider attempt better HTN control although 130/80 s now.

Boot request: boot outside wear is not excessive. Advise pt to bring the entire boot, including insoles. f/u 2 months DSC numb toes. Enroll CCC GERD, fair control, F/u 60 days.

Was a new Chronic Care Enrollment added this visit? Yes

Tests: (1) XRAY ABDOMEN 2 VIEWS (74019)

XRAY ABDOMEN 2 VIEWS FINDINGS: There is mild gas in nondistended loops of small bowel and large bowel. Bone density is osteopenic. Mild spondylosis is noted in the spine. There is no evidence for organomegaly, free air or free fluid. No pathologic calcifications identified. Psoas margins are normal but renal outlines are not well seen. CONCLUSION: Nonspecific bowel gas pattern. ELECTRONICALLY SIGNED BY ANNE GLASER, M.D. 7/30/2020 2:48:40 PM EDT.

Results: There is mild gas in nondistended loops of small bowel and large bowel.

Bone density is osteopenic. Mild spondylosis is noted in the spine. There is no

evidence for organomegaly, free air or free fluid. No pathologic calcifications

identified. Psoas margins are normal but renal outlines are not well seen.

Conclusion: Nonspecific bowel gas pattern.

Electronically signed by ANNE GLASER, M.D. 7/30/2020 2:48:40 PM EDT.

Note: An exclamation mark (!) indicates a result that was not dispersed into the flowsheet.

Chronic Care Follow-Up Interval

Status: Worsened Follow-Up Date 60 Days

Does the follow-up interval chosen deviate from protocol? No

Chronic Care Plan

Overall Plan Comments: Hypertension: Reduce HCTZ to 12.5 mg daily.

also with education he will take his coreg twice daily.

Also to improve BP and weight - he will begin brisk walking daily getting up to 45-60 minutes a day - to lower both BP and weight. Needs to lose 15 lbs over time.

He needs BP checks weekly for 30 days.

Liver: status- discusseed his lab results and he is stable and will follow at CCC at a regular basis- No treatment at this time is indicated.

He will be seen in one month for DSC to review BP checks and medication status: and in 60 days CCC.

Patient durring the visit he complained of exposure in past years to refrigerants and worry about the possible adverse effects from this. Patient should address his concern at sick call through a health service request. He was seen today for his CCC needs.

Assessment

Refractive Error

Plan

Comments: Pt ed that I would guess that the right eye was blurry that day from either mechanical refractive issues (possibly if had been sleeping with pressure on the eye), or from possible lots of SPK if slept with eye open or happened to have irritated cornea. either way, appears all has cleared well and eyes are showing to be stable and healthy. renewed Latanoprost for qPM OS x 7 months and Lacrilube for BID OS PRN x 4 months. Monitor in 6 months with IOP check- order placed.

Toledo, OH 43608 Nurse : NSC refusal Main: 4197267977 Date of Service: 1/21/2020

BRIAN KEITH ALFORD

Male DOB: 1871377715

Encounter Context

Parent Institution at time of evaluation: Toledo Correctional Institution

Age at Time: 62 Years Old

General Note Type: Nurse **Subject:** NSC refusal

Note: Pt submitted HSR reporting continued sinus issues. Writer reviewed recent notes from nursing and ALP since his last visit with writer. Pt was informed to purchase OTC sinus meds from commissary (as he is not indigent) for his symptoms. He has been shopping twice since that visit and did not purchase any OTC meds as directed. Pt reports he "bought only food to stay away from the chow hall and all the sick guys." Pt has been seen by nursing as well (twice since ALP visit) and given OTC meds for sinus symptoms. Writer informed pt he needs to follow the POC as directed by ALP. Pt then refused to participate in NSC any longer. He left the clinic to housing unit.

Encounter Context

Parent Institution at time of evaluation: Toledo Correctional Institution

Age at Time: 62 Years Old

Optometry - Ophthalmology Exam

PO Hx: pt states going to pursue glasses from non-DRC and thought maybe I left some numbers off the RX form. history of cataracts surgery OS around May 2015 and then YAG. Pt had corneal ulcer and

RD OS both in 2014??? VA cc 20 <: 25 rt, 40- left

GAT: 12 rt, 11 left

Pupils: Round and Reactive OU TAG tonopen values are in mmHg

External

OD (Right Eye)
Cornea: nl; Normal

Comments: Grade 2- diffuse spk

OS (Left Eye)
Cornea: nl; Normal

Comments: grade 3 central SPK with keel-shaped scar that is more faint than I recall. (surprised patient could read 20/40- given level of SPK).

Internal

OD (Right Eye)

Optic Discs: Size/Appear/NFL C/D

C/D Findings: 0.65

OS (Left Eye)

Optic Discs: Size/Appear/NFL C/D

C/D Findings: 0.60

Assessment

Refractive Error

Comments: past elevated IOP with good IOP's now on Latanoprost therapy. Dry eye OS. (despite patient states he used Lacrilube this morning- but not last night).

Plan

Orders Added/Modified

Added new Test order of Schedule with Optometry (SCHOPT) - Signed

Comments: PT ed that the glasses RX that I already gave him does have the needed RX info- (as he confirms he only wants DVO- and not a bifocal; pt had seen that didn't have a near pd and nothing in the "add" portion when comparing to past RX). PT ed needs to use Lacrilube qHS and qAM OS. should continue with Latanoprost OS qPM. Pt also requesting Artificial Tears- ed I will try to ordwer 1 bottle but mostly will need to get via commissary. Monitor in 6 months- order placed. (SB: pt also spoke of ocular migraine type symptoms OS though only lasts few minutes).

KITE PROCEDURE

- Check with your Sergeant or Case Manager to see if this communication can be handled without a kite.
- Write only to the Department that handles the problem you have. Others will merely forward your kite.
- State your problems clearly and completely and thereby get immediate attention.
- get immediate attention.

 4. Avoid duplication of Kites, Writing to more than one office about the same thing will not obtain any faster attention.
- 5. Kites are to be used only for communication between inmates and Institutional Staff and not for any other purpose.

BRIAN KEITH ALFORD

Male DOB: 1957 1871377715

for a couple days after stopped, then got worse.

PAIN: mostly in left forearm, deep inside, numbness in three fingers(1-30, nothing seems to make it worse, just hurts constantly. The numbness didn't really get better.

Had an EMG around 8/2018.

Physical Examination

General

The patient is well nourished, well developed, alert and oriented and in no acute distress.

MS - Extremities

LUE

Hand/Wrist

- decreased sensation in fingers 1 - 3

Elbow

ROM: Full

Epicondyle Tenderness - Lateral: Yes

Practitioner Assessment & Plan

Active Problems: 08/17/2018 Carpal tunnel syndrome (ICD-354.0) (ICD10-G56.00)

New Problems:

Lateral epicondylitis, left (ICD-726.32) (ICD10-M77.12).

Assessment Comments: Patient had EMG 8/15/18 that showed: moderate left median nerve neuropathy at the wrist(carpal tunnel syndrome), MIId lef tulnar neuropathy at the elbow, but no evidence of polyneuropathy and no evidence of left cervical radiculopathy, will give him a week of naproxen 500 mg twice daily, given samples of two twice daily #12 packets given, He declined possible kenalog injection at elbow and wrist at this time. Will follow up at next CCC or as needed.

Physical Exam Authorization

The Department of Rehabilitation and Correction has a policy/protocol of providing a physical exam to each inmate on a regular basis.

The Physical consists of lab work (appropriate to gender and age bracket) and an exam by the physician on staff.

If you want a physical exam, check the box marked "Yes". If you DO NOT want a physical exam check the box marked "No".

I understand that if I mark "No" my next physical exam will be according to my gender and age bracket or as specified by the Institution Medical Director.

No, I do not want a Physical Exam

Chief Complaint

1. Eye Exam/Distorted vision

History of Present Illness

NSG/RT/PT-SOAP:

Subjective Per HSR, pt reports bright, solid, yellow object in the right field of vision (new), whether eye is open or closed. Also, he reports minor discharge/drainage from left eye that is altering his vision. Pt relates the spot in the right eye "like I was looking into a bright light and then see a spot in the middle of my eye when I look away or close my eyes.". Objective Per optometry notes last visit (April 2019), pt has an extensive eye history including cataract surgery to both eyes. He is currently on several drops per optometry and scheduled to return to see Dr Shoemaker in September. No active drainage or redness noted to left eye at time of assessment. Nursing Assessment Risk for injury r/t poor vision. Plan Per new reports of symptoms and last optometry notes, pt will be scheduled to see Dr Shoemaker at his next appointment to the institution, and not wait until Sept. Action sent to HIT Sievert to schedule pt for June visit by optometry.

Complains of Bilateral ear pain and Left jaw pain ongoing for approx 1 week.

Examination

General Examination:

GENERAL APPEARANCE: alert NAD, Gait Steady, Body posture Non antalgic. EYES: conjunctiva clear, extra ocular muscles intact (EOMI) bilaterally. ORAL CAVITY: moist mucous membranes.

NECK/THY ROID: no carotid bruit, no lymphadenopathy, supple, thyroid normal.

CARDIOVASCULAR: normal S1 and S2, regular rate and rhythm, no murmur or gallop.

RESPIRATORY: clear to auscultation bilaterally, no wheezes, rhonchi, rales. GASTROINTESTINAL: normal bowels sounds, no guarding, no masses palpated, no tenderness No hepatosplenomegaly.

NEUROLOGIC EXAM: non-focal exam.

SKIN: no rash or skin lesions.

EXTREMITIES: no edema.

PERIPHERAL PULSES: radial and post tib pulses normal (2+) bilaterally.

Assessments

- 1. Liver Disease CLI9 (Primary), Clinical Status-Stable,
Degree of Control-Good $\rm F/U\,180\,Days$
- 2. Unspecified viral hepatitis C without hepatic coma 070.70
- 3. Cardiac / Hypertension CLI1, Clinical Status-Stable,
Degree of Control-Good $\rm F/U$ 180 Days
- 4. Unspecified essential hypertension 401.9

Treatment

1. Liver Disease

Encouraged to continue coming to CCC HCV appts and allowing lab work. Explained this is how we know when HCV Tx like Harvoni is needed. Continue to avoid hepatotoxic behaviors including drugs and alcohol and tattooing. Education as above and labs reviewed Encouraged to increase oral fluids. Good handwashing promoted .Pt verbalizes understanding of instructions.

2. Others

Examination

General Examination:

GENERAL APPEARANCE: alert NAD Gait Steady, Body Posture non antalgic . EY ES: conjunctiva clear, extra ocular muscles intact (EOMI) bilaterally. ORAL CAVITY: moist mucous membranes.

NECK/THY ROID: no carotid bruit, no lymphadenopathy, supple, thyroid normal.

CARDIOVASCULAR: normal S1 and S2, regular rate and rhythm, no murmur or gallop.

RESPIRATORY: clear to auscultation bilaterally, no wheezes, rhonchi, rales. GASTROINTESTINAL: normal bowels sounds, no guarding, no masses palpated, no tenderness No hepatosplenomegaly.

NEUROLOGIC EXAM: CN's II-XII grossly intact.

SKIN: no rash or skin lesions.

EXTREMITIES: no edema.

PERIPHERAL PULSES: Post tib pulses normal (2+) bilaterally.

Assessments

- 1. Cardiac / Hypertension CLI1, Clinical Status-Improved, Degree of Control-Good ${\rm F/U}$ 90 days
- 2. Unspecified essential hypertension 401.9
- 3. Liver Disease CLI9, Clinical Status Unchanged, Degree of Control-Good F/U 90 days
- 4. Unspecified viral hepatitis C without hepatic coma 070.70

Treatment

1. Cardiac / Hypertension

Education as above and labs reviewed Encouraged to increase oral fluids. Good handwashing promoted .Pt verbalizes understanding of instructions Reminded pt to refill medications in a timely manner. Reinforced education r/t disease process and risk factors for end organ damage. Continue same medication plan. Labs to

follow PRN. Counseled regarding diet, exercise, weight management and medication compliance. Plan was discussed with pt and all questions answered Patient verbalizes understanding of education provided.
2. Liver Disease Education as above and labs reviewed Encouraged to increase oral fluids. Good handwashing promoted . Advised ODRC does Tx HCV. Encouraged to continue coming to CCC HCV appts and allowing lab work. Explained this is how we know when HCV Tx like Harvoni is needed. Pt verbalizes understanding of instructions.
3. Others Action Started- NSG - Schedule with ALP
Follow Up 3 Months (Reason: CCC HTN, HCV Clinical Status-Improved, Degree of Control-Good F/U 90 days w/ALP)

Chief Complaint

1. multiple complaints NSC 03/21/19

History of Present Illness

_:

HIp is not too bad, for about a week, on and off, had trouble walking due to pain in hip down to knee, on the left. "not bothering me now", other thing, been having pain from left ear down to jaw, seems a little tight in that TMJ, sometimes feels like it's in ear, not as bad today. Been taking some naproxen, seems to help.

May be allergies, runny nose, stuffy nose, burning in chest, eyes water at times, other time irritated, some ha's. sneezing, had been given a few little pills, last time saw him gave him some chlorphen and claritin, that combo worked pretty good.

Right eye seems to be having more floaters, membrane in left eye that they lasererd on the back of a lens they put in, seems to be in his vision.

Would like to see podiatrist.

Review of Systems

MED-A-ROS:

General Symptoms weight up and down. Eyes chronic problems. Ears, nose, mouth and throat sore throat,

runny/stuffy nose, pressure in ears.

Cardiov ascular palpitations, doesn't matter if stiting, lyiing, just occurs.

Respiratory some cough.

Gastrointestinal abdominal pain, left side, sometimes sharp, not sure what makes it worse. Genitourinary nocturia, depends on wether drinks fluids after 2000. Skin Denies skin issues.

Neurological numbness and tingling in left hand, fingers 1 to 3. Musculoskeletal some funny sensation in right shoulder down arm. Psy chiatric Denies psychiatric symptoms. Endocrine No.

Hematologic No, Denies brusing or bleeding tendencies.. Allergic chronic allergies.

Brief normal exam:

GENERAL APPEARANCE: well nourished and hydrated.

HEENT: pharynx and tonsils normal, TM's normal.

ORAL CAVITY: no lesions.

NECK: supple, no lymphadenopathy, no carotid bruit.

CHEST: normal shape and expansion.

HEART: regular sinus rhythm, no murmurs.

LUNGS: clear to auscultation.

ABDOMEN: soft, NT/ND, BS present, no masses felt, no hepatosplenomegaly.

NEUROLOGIC EXAM: no meningeal signs, no focal signs.

SKIN: normal.

PERIPHERAL PULSES: normal.

BACK: normal.

EXTREMITIES: unremarkable.

GENITALIA: deferred.

ANORECTAL/PERINEUM: digital exam-deferred.

Assessments

1. Routine general medical examination at health care facility - V70.0 (Primary)

Treatment

1. Routine general medical examination at health care facility

LAB: APRI Panel with Calculations (Ordered for 04/29/2019)
Family and medical history updated, lipids, glucose and hemoccult results reviewed, will order his APRI panel with calculation and ask for his CCC to be sooner as he had some concerns.

Assessment:

Assessment:

Pigment on endo OS as well as ongoing corneal thinning/inflamation. (PT confirms already compliant with Lacrilube).

Regular astigmatism - 367.21 (Primary)

Presbyopia - 367.4

Refractive error.

PVD longstanding OD.

s/p cataract surgery with IOLOS. Rt eye with only very mild cataract at this point.

Plan:

Case: 3:21-cv-01123-JGC Doc #: 62-1 Filed: 03/12/25 991 of 1070. PageID #: 1264

Therapeuti Injections:

Labs: Follow Up: Sept 20 (Reason: con and pressure

check)

Disposition:

Notes: Pt to continue with Latanoprost qhs OS indefinitely (renewed X 7 months.) Pt to continue with Lacrilube ophthalmic ointment OS BID PRN (renewed X 4 months). Pt to start 1% PRed Forte ophthalmic suspension. Rx'd for 1 drop OS TIDx 4days, BID x 4 days, QD x 4 days. New action sent to HIT Sievert: "Please schedule this patient back to see Optometry in September 2019" My working theory on Mr Alford is that he mostly has blurred vision OS from the amount of pigment on his IOL and his cornea as well as the mild SPK...the pigment I would guess would be from the surgery for his cataract and quite a bit of Laser.

would be from the surgery for his car	aract and quite a on	of Lasci.

Brian Keith Alford, : Case No. 3:21-cv-01123

Plaintiff, :

:

v. Judge James G. Carr

:

Robert Zilles, et al., Magistrate Judge Darrell A. Clay

:

Defendants. :

DECLARATION OF DEREK BURKHART CORRECTION WARDEN ASSISTANT 2 TOLEDO CORRECTIONAL INSTITUTION

- I, **Derek Burkhart**, pursuant to 28 U.S.C. 1746, make this unsworn declaration, under the penalty of perjury and declare that the statements made below are true:
 - 1. I am a Correction Warden Assistant 2 at Toledo Correctional Institution ("ToCl").
 - 2. That I am competent to testify and have personal knowledge of the facts stated herein.
 - 3. I have been employed by the Ohio Department of Rehabilitation and Correction ("ODRC") since June 10, 2010.
 - 4. In the course of my duties as a Correction Warden Assistant 2, I have been tasked with reviewing whether the boots requested by Brian Keith Alford, Inmate No. A196-744, would constitute contraband pursuant to ODRC policy and procedure.
 - 5. While housed at ToCl, Inmate Alford had a level IV security rating.
 - 6. As of April 6, 2018, Inmate Alford was advised, by me, that he would not be allowed to order boots from the company of his choice. (See Ref# TOCI•318000369, Bates Stamp DRC001014). Rather, he could order tennis shoes which would meet his medical needs. Inmate Alford continued to attempt to order boots which would be considered contraband.

- 7. The boots which Inmate Alford ordered from Hitchcock Shoes are considered contraband. Therefore, Inmate Alford was not allowed to have the same in his possession. (See Ref# TOCI0621001903, Bates Stamp DRC001024).
- 8. A true and accurate copy of Inmate Alford's movement history has been attached hereto and incorporated herein. (See Movement History, Bates Stamp DRC001056).
- 9. I did not provide medical care to Inmate Alford.

I, **Derek Burkhart**, pursuant to 28 U.S.C. § 1746, make this unsworn declaration under penalty of perjury and declare that the foregoing statements are true.

Derek Burkhart

Correction Warden Assistant 2

2/25/2020 12:55:46 PM: (Michael Jenkins) wrote

This office is in receipt of Notification of Grievance Case TOCl0120001924 submitted by Inmate Alford A196744. In your grievance, you say that you have symptoms of a cold and was refused treatment as of 01-21-2020.

During my investigation I have review your complaint. I have spoken to UM Mendoza. I have reviewed policy 07-ORD-11 - Confidentiality of Medical, Mental Health, and Recovery Services Information and Administrative Rule 5120-9-31 – The inmate Grievance Procedure.

First of all, you Offender Alford A196744 is a regular offender in medical. On 01-21-2020 were in medical regarding sinus issues. You were informed to purchase OTC sinus medications. Medical has informed you of this twice in the past and you refused to follow medical plan provided but instead purchased other items from commissary such as food. When the ALP saw you twice in the past and were given the OTC sinus medication but explained too you to follow the POC plan and purchase your OTC meds from commissary. It is important to understand that you are not an indigent inmate thus you were informed to purchase the OTC sinus medications from commissary. You have since been seen in medical on 2-3-2020 NSC and lastly 2-10-2020 with directions to return to clinic as needed. Please follow the medical plans when provided to you. Please focus on prosocial development. Please feel free to file viable complaints when they arise.

Your Grievance is Denied-No violation or policy procedure or law

This office will take no further action concerning this matter.

This ends Disposition of Grievance TOCI0120001924

Please be advised that additional time will be required before a decision can be made concerning your appeal. This extension is needed by this writer in order to render a fair and proper resolution.

3/25/2020 8:11:57 AM : (karen stanforth) wrote

The Office of the Chief Inspector is in receipt of your Appeal; a thorough review of your appeal has been completed that included the application of the following factors:

- Procedural requirements
- Proper investigation of your grievance
- · Applicable policies, procedures, administrative rules, directives and ODRC operating manuals
- · Documentation and related evidence
- Information presented in your appeal

Based on the aforementioned review, the decision rendered by the Inspector is hereby: AFFIRMED Karen Stanforth, Assistant Chief Inspector, Medical

DOCTOR PORTER WROTE AN ORDER FOR NASACORT AND ITWAS DENIED BECAUSE THEY NOW SELL IT IN COMMISSARY FOR 11.29. I HAVE CHRONIC ALLERGIES TO :RAGWEED, POLLEN, DUST, MOLD, MILDEW, GRASS, TOBACCO, TOBACCO SMOKE, WOOL FOLOWING TESTING IN COLUMBUS WHICH REQUIRED ACTUAL SHOTS MONTHLY. BECAUSE THIS IS A CHRONIC ILLNESS WHICH IS LEFT UNTREATED CAN RESULT IN UPPER-RESPIRATORY INFECTIONS, SINUS INFECTIONS, EAR INFECTIONS REQURING ANTIBIOTICS/PENNISILIM, WHY MUST I BE REQUIRED TO PAY FOR MEDICATION TO TREAT? I DON'T PAY FOR MEDICATION FOR CHRONIC HYPERTENSION!! THIS IS IN CLEAR VIOLATION OF THE EIGHTH AMENDMENT OF THE UNTIED STATES CONSTITUTION AND MUST BE CORRECTED. SPICIFICALLY IN LIGHT OF THE COVID-19 EPIDEMIC.

3/4/2021 11:57:50 AM: (Michael Jenkins) wrote

This office is in receipt of Notification of Grievance Case TOCl0221000945 submitted by Alford A196-744 In your grievance, you Dr.Porter wrote an order for Nasacort and now you have to pay for medication which is wrong and violation of your rights.

During my investigation I have review your complaint. I have reviewed the response from PA3 Zilles. I have reviewed policy 68-Med-01 Medical Services and Administrative Rule 5120-9-31 — The inmate Grievance Procedure. AlfordA196744 I have reviewed the complaint. I have reviewed your response from PA3 Zilles and when you were last seen in medical regarding the above mentioned complaint. Well Columbus has reviewed the request and made a decision for this medication and since it is an over the counter it has been decided to purchase from commissary. So I have reviewed the commissary listing and it appears the medicine Trimcinolone Nasacort is currently \$11.29 so make sure that you mange your funds accordingly. I see that you spent \$30.00 on 02-10-2021 and then \$31.00 on 02-17-2021. You also receive \$18.00 monthly in state pay.

Your Grievance is Denied-No violation of policy, procedure or law

This office will take no further action concerning this matter.

Affirmed.

The Office of the Chief Inspector has reviewed your concern and the Nascort can be purchased over-the-counter while your blood pressure medication is a prescribed drug that can only be dispensed through a licensed pharmacy. Only offenders who are classified as indigent are assisted with such OTC medications. The staff have followed the ODRC guidelines set forth in 68-MED-01, 68-MED-11 and Medical Protocol B-1. Therefore, there will be no further action concerning this appeal at this time.

WAS INTERVIEWED 3-28-18 BY FORMER HCA KROGGEL. AHCA BARKER, UNIT MANAGER HERNANDEZ AND THE CURRENT HCA WHO REMAINED MUTE DURING THE INTERVIEW, REGARDING THE FAILURE OF ODRC TO PROVIDE PROPERLY FITTED BOOTS(12EEE) AND REQUEST TO PURCHASE THEM AT MY EXPENSE. MR. HERNANDEZ ADVISED I WOULD NOT BE ABLE TO PURCHASE MEDICALLY APPROVED BOOTS FROM HITCHCOCK SHOES BECAUSE I MIGHT HAVE SOMEONE AT HITCHCOCK MAIL DRUGS OR CONTRABAND INTO THE INSTITITUTION, AND BECAUSE MEDICAL HAD PROVIDED BOOTS. THE BOOTS ISSUED WERE 12EE NOT 12EEE AS PROMISED BY AHCA BARKE ON 1-8-18 WHO HAD ADVISED THAT THE BOOTS WERE MADE TO ORDER TRIPLE E WIDTH AND NOT A COMMON SIZE. WHEN I PICKED UP THE BOOTS THE SECOND TIME THEY WERE ORDERED (12EEEE THE FIRST TIME), I LEARNED THEY WERE ACTUALLY 12EE BOOTS. I MADE AHCA BARKER AWARE OF THIS FACT AS WELL AS THE NURSE WHO ISSUED THEM, AND AHCA BARKERS' REPONSE WAS "WHATEVER SIZE THEY WERE SUPPOSED TO BE, THAT'S WHAT THEY ARE". FORMER HCA KROGGEL WAS ABLE TO LOCATE 12EEE GYMS SHOES WITHIN 15 SECONDS AT AMAZON.COM. DURING THE INTERVIEW, YET FAILED TO LOCATE 12EEE BOOTS AS PROMSIED. THE ORTHOFEET COMPANY IS SOLD THRU HITCHCOCK SHOES AND THEY DO NOT HAVE 12EEE. PURSUANT TO R.C. 149.43 et seq AND DRC POLICY 07-ORD-02 REQEUST COPIES OF ALL INTEROFFICE COMMUNICATIONS AND EMAILS REGARDING THE PURCHASE AND ORDERING OF 12EEE BOOTS FOR BRIAN KEITH ALFORD A196-744 OR ODRC IS LIABLE FOR STATUTORY DAMAGES.

4/6/2018 3:05:54 PM: (Derek Burkhart) wrote

This office is in receipt of Notification of Grievance Case TOCI 03-18-000369 submitted by Inmate Alford A-196744. In your grievance you state you still need approval to order properly fitted boots. You state medical ordered you the wrong size and you request to order through Hitchcock Shoes which you claim is the only company that makes this size. During my investigation, I have reviewed your complaint. I have spoken to HCA Zilles and AHCA Barker. I have reviewed policy 68-MED-01-Medical Services, policy 68-MED-14 – Specialty Health Care Services, and Administrative Rule 5120-9-31-Inmate Grievance Procedure.

I have found that you were ordered boots by medical in your appropriate size of 12 EEE which came in and you tried on. You claimed these boots to be too big so they were returned for a size smaller. This company claims their boots run big so the appropriate size would likely be the size smaller. When these boots arrived in size 12 EE, you tried them on and through communication with AHCA Barker and the nurse, claimed these boots fit well and you signed for them. You then complaint a few weeks later saying that you didn't want the boots. Since you had already accepted them and wore them, these boots were yours. A meeting was then held with you to discuss properly fitted shoes and to this meeting you wore the boots in question that you claimed to not like. You were informed you could order a pair of tennis shoes at your expense but you would not be permitted to order boots from the company of your choice. You have been property treated by medical at ToCl in accordance with policy 68-MED-01 and 68-MED-14.

Your grievance is denied – no violation of rule, policy, or law. This office will take no further action concerning this matter.

This ends Disposition of Grievance TOCI 03-18000369.

THE INSPECTOR'S PERSPECTIVE OF THE RELEVANT FACTS ARE INCORRECT, AND IS AN ATEMPT TO CONCEAL A VIOLATION OF POLICY.I WAS NEVER RECEIVED SIZE 12EEE BOOTS. THE ORIGINAL BOOTS ORDERED WERE A SIZE 12EEE(4E), NOT 3E AS ALLEGED. THEY WERE I N FACT TOO WIDE.I TRIED THOSE BOOTS ON BECAUSE AHCA BARKÉR ALLEGED THE BOOTS RUN SMALLER, BUT 124E WAS I N FACT TO WIDE. UPON REORDERING BOOTS, WHEN I WENT TO PICK THEM UP I WAS GIVEN A SIZE 12EE(2E) AND I EXPLAINED THIS ERROR TO AHCA BARKER AND THE NURSE WHO ISSUED THEM. I TOLD MS BARKER THEY WERE BETTER THAN WHAT I HAD, MEANING THE STATE ISSUED SHOES I'VE BEEN WEARING, BUT THAT THEY WERE STILL TOO NARROW. I NEVER STATED THE BOOTS FIT WELL. I COMPLAINED ABOUT THE BOOTS WHEN I SIGNED FOR THEM, AND MS. BARKER ADVSIED "WHATEVER SIZE THEY ARE SUPPOSED TO BE, TAHT'S WHAT THEY ARE". I WEAR THE BOOTS BECAUSE THEY ARE ALL THAT I HAVE TO WEAR, BUT THIS DOES NOT EXCUSE THE DECEPTIVE MEASURES USED TO ISSUE THE WRONG SIZE BOOTS BY HEALTH SERVICES OR THE ATTEMPT MADE TO CONCEAL THIS DECEPTION. THIS IS A COMMON PRACTICE BY ODRC STAFF IN GENERAL. REQUEST COPIES FO ALL INTEROFFICE COMUNICATIONS AND EMAILS REGARDING THE ORDERING OS SIZE 12EEE BOOTS FOR BRIAN KEITH ALFORD A196-744 FROM ORTHOFEET AND THE COSTS ATTRIBUTED TO SAME PURSUANT TO R.C. 149-43 et seq AND POLICY 07-ORD-02 AND REMOVAL OF MS. BARKER FROM ODRC AS WELL AS HCA ZILLES.

This office received your grievance TOCl03200002009 submitted by Inmate Alford A196744. In your grievance, you state that there is no documentation in your file regarding exposure to hazardous waste since 2013 and that medical staff were snickering and laughing and saying 14 more times hold up Alford.

During my investigation, I have reviewed your complaint, Medical file, I have reviewed HCA Segar response spoke to have review Administrative Rule 5120-9-31 – the inmate grievance procedure.

Ref# TOCI0320002009 Housing:A1W0014 Date Created:03/24/2020

Offender Alford you clearly state that their is nothing in your medical file regarding exposure to hazardous exposure back in 2013 at Lebanon. You later go on to say if there is anything in your file back in 2013 regarding exposure in Lebanon. This is clearly an issue where you need to kite medical to review your file. As far as medical staff snickering I have informed the HCA supervisor and the allegations simply cannot be substantiated. Understand that medical staff may mention your name as you are in the area and their medical duties require them to to both inquire and research medical information. Please Kite HCA Segar as he has informed you to do so.Please follow the medical plan of action you have been provided.

Your grievance is denied - no violation of rule, policy, or law. This office will take no further action regarding this matter.

This ends disposition of Grievance TOCI03200002009

VIOLATION OF 5120-9-04 AND 31-SEM-01. ON 2-19-18 I SUBMITED A HEALTH SERVICES REQUEST FOR NUMBNESS IN MY LEFT ARM SINCE 2015 AND IN THREE FINGERS. ON 3-1-18 WAS EXAMINED BY DR. DA LA CRUZ WHO ADVISED AN EMG WOULD BE PERFORMED. ON 4-9-18 I SIGNED FOR ROUND TRIP FOR EMG AND AT THAT TIME NOR ANY OTHER TIME WAS I ADVISED THAT IF I REFUSED I WOULD BE CHARGED A 20.00 FEE, OR THAT I WOULD BE REQUIRED TO PACKUP ALL OF MY PERSONAL PROPERTY PRIOR TO GOING ON ROUND TRIP. ON 4-17-18 I WAS ADVISED BY THIRD SHIFT OFFICER I WAS GOING ON ROUND TRIP AND WOULD HAVE TO PACK UP MY PROPERTY. I ADVISED NO ONE INFORMED ME OF THIS BEFORE, AND THAT I WOULD SIGN AN AMA. AT 3:30A.M. I WAS TAKEN TO MEDICAL ON 4-18-18 TO SIGN AN AMA, AND AFTER SIGNING THE AMA NURSE MATTHEWS ADVISED THAT I WOULD BE CHARGED A TICKET FOR 20.00 FOR REFUSING TO GO ON ROUND TRIP. THIS IS A CLEAR VIOLATION OF 5120-9-04 AND 31-SEM-01 SINCE I NEVER AGREED TO THESE TERMS IN WRITING OR OTHERWISE, AND WAS NEVER ALLOWED TO READ THE DOCUMENTS I SIGNED ON 4-9-18 OR 4-18-18. I OBJECT TO THESE TERMS.

4/23/2018 10:05:41 AM: (Robert Zilles) wrote

As discussed today your charge stand in accordance with policy 68-Med 14. It states the Rules infraction board shall consider discipline, and a 20 dollar administrative fee may be charged for the late cancellation. You also signed the Notification of Medical Appointment form that also states failure to follow through with your test will result in disciplinary action. Such disciplinary action may include charges by the RIB for class II violation. It also states that you understand the RIB may order restitution for any cost that may result from my failure to attend this appointment.

4/23/2018 4:30:58 PM: (a196744) wrote

THE FINDINGS OF THE RIB AND HCA ARE UNFOUNDED. ON 4-9-18 WHEN I SIGNED THE FORM 5028 I WAS NEVER ALLOWED TO READ IT PRIOR TO SIGNING, AND THE ONLY THING I WAS TOLD IS TO TRY TO SCHEDULE ANY VISITS AFTER THE FOLLOWING TWO WEEKS UNTIL AFTER MY ROUND TRIP. DUE TO PENDNG LITIGATION IN CASE NO 1:15-CV-00645 DUE 4-30-18 I DID NOT WANT TO MISS A LAW LIBRARY PASS TO COMPLETE MY OBJECTIONS TO REPORT AND RECOMMENDATIONS DUE 4-30-18 (SEE ORDER 3-27-18 PASS 4-2-18, KITE 3-13-18, 3-15-18 AND 3-27-18). I OBJECT TO A TWENTY (\$20) DOLLAR RESTITUTION FOR REFUSING TO GO ROUND TRIP FOR FAILURE OF ODRC TO READ OR ALLOW ME TO READ THE FORM 5028 PRIOR TO AND AFTER SIGINING. SINCE JULY 2014 I HAVE NEVER READ, BEEN GIVEN A COPY OF, OR BEEN ADVISED THAT FAILURE TO ATTEND A ROUND TRIP COULD RESULT IN A VIOLATION OF RULES AND 20.00 DEDUCTION.

5/7/2018 10:12:40 AM : (Derek Burkhart) wrote

This office is in receipt of Notification of Grievance Case TOCI 04-18-000266 submitted by Inmate Alford A-196744. In your grievance you state on 4/9/18 you signed a round trip form for an EMG to which you claim you were not informed you could be charged \$20.00 to refuse. On 4/17/18, you state you were advised of the round trip and to pack up all your property to which you signed an AMA. You claim Nurse Matthews informed you that you would be charged \$20.00 to which you disagree.

During my investigation, I have reviewed your complaint. I have spoken to HCA Zilles and reviewed your signed Notification of Medical Appointment. I have reviewed policy 68-MED-01 - Medical Services, policy 68-MED-14 – Specialty Health Care Services, and Administrative Rule 5120-9-31-Inmate Grievance Procedure.

I have found that on the Notification of Medical Appointment, it states that failure to follow through will result in disciplinary action. This action may order restitution for any costs due to failure to attend. Policy 68-MED-01 (J) (3) (b) (iv) (2) states:

"The Rules Infraction Board (RIB) shall consider discipline, and a \$20.00 administrative fee may be charged for the late cancellation."

Your grievance is denied – no violation of rule, policy, or law. This office will take no further action concerning this matter.

This ends Disposition of Grievance TOCI 04-18-000266.

The Office of the Inspector of Institutional Service is in receipt of your grievanceTOCl0621001903 case number Mr. Alford A196744. Where you were disapproved medical boots through Toledo. still have neuropathy and still require medical need for the boots.

The following were conducted to investigate your grievance. Spoke to Rn Kolinski Reviewed AR 5120-9-31 Offender Grievance Process, Reviewed ODRC Policies 68-MED-01, and 68-MED-19

Mr. Alford you have been medically and security wise disapproved of medical boots while at Toledo Correctional. Boots may have been ordered by someone inadvertently but but because of the security level and a decision has been determined they are not authorized at Toledo. Please kite medical to determine a replacement option that is available concerning the issues that you say your having.

Based off the above there is no violation of ODRC policies or Administrative Rules.

Your grievance is denied- No violation of procedure, policy, law

This office will take no further action regarding this matter.

BASED UPON AUTHORIZED APROVAL FOR MEDICALL Y APPROVED BOOTS SIZE 12 3E PURCHASED AT MY EXPENSE AND APPROVED BY MEDICAL STAFF ON 3-31-21, AND BASED UPON AWAITING APPROVAL FOR ADA REASONABLE ACCOMODATION FOR THIS MEDICAL NEED, REQUEST ISSUANCE OF THE BOOTS ONCE ADA ACCOMMODATION IS APPROVED.

7/28/2021 8:07:39 AM: (Marc Bratton) wrote

The office of the Chief Inspector is in receipt of your informal complaint, disposition of grievance and your appeal to this office. The subject and description of your appeal has been redirected to Health Care Services for analysis and final decision.

8/4/2021 12:29:57 PM: (karen stanforth) wrote

Affirmed.

The Office of the Chief Inspector has reviewed your grievance concerning boots for your peripheral neuropathy. You were seen by Dr. Porter and HCA Seger and they also discussed your case with Mr. Gardner of the Collegial Review Committee. During your DSC visit on 7/16/21 your feet were evaluated for callus formation, neuropathy and also there were no pre-ulcer callus or ulcer findings. At this time you were advised that you would not qualify for anything other than a double depth shoe and orthotic inserts. Your gait was stable and you do not have any signs of instability. Therefore high ankle tennis shoes are indicated for you. Please follow-up with the medical staff for assistance if you feel the need and they can help you secure these shoes.

The medical staff have followed the ODRC guidelines set forth in 68-MED-14. Therefore, there will be no further action concerning this appeal at this time.

Karen Stanforth, Assistant Chief Inspector, Medical

MT CONCERN INVOLVES POSSIBLE EXPOSURE TO DELTA VARIANT IF A TRANSFER IS MADE TO AN ENVIRONMENT WITH TWICE THE NUMBER OF PEOPLE. I HAVE DOCUMENTATION OUTSIDE OF MEDICAL ENCOUNTERS, AND REQUESTED TESTING FOR COVID-19 AFTER BEING EXPOSED TWICE LAST YEAR - ONCE IN JANUARY-FEBRUARY AND THE SECOND TIME LATE LAST YEAR WHEN THE FOOD SERVICE WORKERS WERE EXPOSED. THIS ISSUE IS THOROUGHLY OUTLINED IN CIVIL COMPLAINT NO 2:20-CV-03879 CURRENTLY ON APPEAL IN SIXTH CIRCUIT COURT OF APPEALS. IN ADDITION, MEDICAL HAS FAILED TO TREAT ME FOR LIFE-THREATENING ILLNESSES (HEP-C) SINCE 2018 WHICH PLACES ME AT GREATER RISK OF CONTRACTING COVID-19 AND THE DELTA VARIANT AND THOROUGHLY OUTLINED IN CIVL COMPLAINT NO. 2:21-CV-01878 WHICH HAS BEEN TRANSFERRED TO NORTHERN DISTRICT OF OHIO AS OF 6-3-21. MY CONCERN IS MY IMMEDIATE HEALTH AND RIGHT TO LIFE, TO BE FREE FROM CRUEL AND INHUMANE CONDITIONS BY PLACING ME IN IMMINENT THREAT OF THE DANGER OF DEATH OR SERIOUS BODILY HARM BY DECREASING MY SECURITY AND APPROVING TRANSFER DURING THE VARIANT SURGE, BEFORE MY FINAL APPEAL IS COMPLETED WHICH WAS MAILED TODAY CERTIFIED MAIL AND DUE 8-6-21. YOU WILL BE AMENDED INTO CURRENT LITIGATION PENDING IN CASE NO 2:21-CV-01878.

8/4/2021 9:36:08 AM: (Michael Jenkins) wrote

This complaint is as following CaseTOCI0721002161: where you Mr. Alford A196744 you are recommended to level 3. You bring up delta variant and boots again

Understand I have read HCA Segar response and reviewed 68-med-01, 5120-9-31 grievance process

Mr. Alford A196744 I read your complaint. you have been approved for reduction to level 3. The institution that you will probably be reporting to is WCI. as far as Delta variant. You were provided a thorough response from HCA Segar which will not be repeated. You are scheduled for a visit 50 over physical in 08172021. I will not answer any questions about boots because it has already been addressed in complaints TOCl0621002162,toci0621002151 and TOCl0621001903 Your concern has been previously addressed and therefore, will not be responded to in accordance with AR 5120-9-31 (E). Please be advised that your improper use of the grievance procedure may result in restricted access in accordance with AR 5120-9-31(E).

Mr. Alford please follow all medical plans that have been addressed with you in the future. Good Luck at WCI.

Your Grievance is Denied-(No violation of law, policy or procedure by staff)

This office considers this complaint closed

8/4/2021 2:04:59 PM: (a196744) wrote

ALTHOUGH A SEPARATE APPEAL HAS BEEN MAILED 7-29-21 ON THIS ISSUE, 5120-9-31 IS DESIGNED TO ADDRESS INMATE COMPLAINTS RELATED TO ANY ASPECT OF INSTITUTIONAL LIFE THAT DIRECTLY AND PERSONALLY AFFECTS THE GRIEVANT. 5120-9-31(A). BECAUSE THE PROCEDURAL VIOLATION AFFECTS MY HEALTH AND SAEFTY BY DECREASING MY SECURITY AND APPROVING TRANSFER TO ANOTHER FACILITY WITH TWICE THE NUMBER OF INMATES DURING THE DELTA VARIANT SURGE PLACING ME IN IMMINENT THREAT OF DEATH OR SERIOUS BODILY HARM DUE TO MY LIFE-THREATENING ILLNESS AND FAILURE TO TREAT FOR SAME, I NEEDED TO ADDRESS THE VIOLATION IMMEDIATELY. IN DOING SO, I NOTIFIED DWO WALTERS, UMC ROBINSON'S SUPERVISOR. HOWEVER, DENNIS SEGER HAS ONCE AGAIN ATTEMPTED TO FALSIFY INFORMATION IN MY MEDICAL FILE, AS ON 7-20-20 I REQUESTED ACTIVE AND ANITI-BODY TESTING FOR COVID-19 AFTER EXPOSURE IN JAN OR FEB 2020 AND THIS DOCUMENT IS AN EXHIBIT IN CIVIL COMPLAINT NO. 2:20CV-03879 CURRENTLY ON APPEAL IN CASE NO 21-3662. OF WHICH UMC ROBINSON AND WARDEN MAY ARE DEFENDANTS TO.5120-9-31(H) STRICTLY PROHIBITS RETALIATION OR THE THREATENED RETALIATION FOR USE OF THE INMATE GRIEVANCE PROCEDURE. R.C. 2945(A) PROHIBITS PUBLIC SERVANTS UNDER COLOR OF LAW TO DEPRIVE AN Y PERSON OF A CONSTITUTIONAL OF STATUTORY RIGHT.

8/30/2021 4:01:47 PM: (karen stanforth) wrote

Affirmed.

The Office of the Chief Inspector has reviewed your grievance concerning the your potential exposure to the Delta Variant if you are moved to a different institution. While you do have the right to refuse the Covid vaccine which you did on 3/11/21 and were counseled for as well, you are placing yourself at increased risk for contracting Covid and any variants. With your age and your chronic illnesses you should definitely take the vaccine however your still maintain your refusal. As stated, this is your choice however you do not have a choice for housing placements/security assignments, therefore I truly hope you will reconsider this decision.

This appeal is closed with the knowledge the staff have followed the ODRC guidelines set forth in 68-MED-01 and 68-MED-24. Hopefully, you will reconsider your decision and work to maintain your optimal level of health during incarceration.

Karen Stanforth, Assistant Chief Inspector, Medical

This office is in receipt of Notification of Grievance Case TOCI 08-18-000556 submitted by Inmate Alford A-196744. In your grievance, you state due to the alleged amount of Hepatitis A in the institution, you are requesting to be tested. During my investigation, I have reviewed your complaint. I have spoken to HCA Zilles. I have reviewed policy 68-MED-01 - Medical Services and Administrative Rule 5120-9-31-Inmate Grievance Procedure.

I have found that as HCA Zilles stated, you have been previously vaccinated with the Hep A vaccine on 9/28/12 and 4/12/13. At this time, there is not a need for additional vaccination or testing. You may submit a health service request if you have a concern that you feel needs addressed.

Your grievance is denied – no violation of rule, policy, or law. This office will take no further action concerning this matter.

This ends Disposition of Grievance TOCI 08-18-000556.

A NWE RX FOR GLASSES WAS ISSUED IN 9-11-17 WHIEL AT S.O.C.F. BY THE SAME DR. SINCE THAT TIME, A SECOND RX HAS BEEN ORDERED WITH TENTED LENS, AND THE OBSTRUCTIONS CONTINUE TO BECOME LARGER AND DARKER JUST LIKE SITUATION IN 2014 WHEN I EXPERIENCED A RETINAL TEAR TO MY RIGHT EYE. IN ADDITION, I'VE EXPERIENCED GREATER PAIN BEHIDNMY RIGHT EYE, MY LEFT TEMPLE AREA, AS WELL AS AHVING BEEN EXPERIENCING DIZZINESS WHICH I ASSUMED WAS ASSOCIATED WITH AN INNER INFECTION (8-8-17, 9-24-17, 10-4-17, 10-11-1 AND 10-28-17) AS WELL AS DOUBLE VISION IN MY LEFT EYE, A FLASHING PULSE IN MY LEFT EYE, DISCHARGE, A FLOATING OBSTRUCTION SINCE 2015, DRYNESS, (COURT OF CLAIMS OF OHIO CASE NO. 2017-00592). REQUEST A CNOSULT TO DETERMIEN THE BEST COURSE FO TREATMENT FOR PREVENTIVE CARE RATER THAN AWAIT ANOTHER DISASTER LIKE 2014 WHICH COULD HAVE PERMENANT EFFECTS.

12/27/2017 3:23:55 PM : (Derek Burkhart) wrote

This office is in receipt of Notification of Grievance Case TOCI 11-17-000291 submitted by Inmate Alford A-196744. In your grievance you state you have been having problems with your eye since 2015. You experience a tear on 7/12/17 to your right eye. You state you are waiting to be seen by the eye doctor but you believe the results will be the same and you will be refused glasses with tint and not recommended to see a specialist.

During my investigation, I have reviewed your complaint. I have spoken with Mrs. Kroggel, Health Care Administrator and reviewed the notes from your visit on 11/29/17. I have reviewed Policy 68-MED-01-Medical Services, 68-MED-14 – Specialty Health Care Services, and Administrative Rule 5120-9-31-Inmate Grievance Procedure.

I have found that your complaint was a speculation of what you expected but not a legitimate complaint regarding a violation of policy or procedure. You were seen 4 days after your initial informal complaint on 11/29/17 and glasses with tint were ordered. Per the Doctor, you eye health is very stable and a follow up in 6 months was recommended. If you feel you need to be seen soon than the recommended appointment, you may submit a health service request. Your Grievance is denied – no violation of rule, policy, or law. This office will take no further action concerning this matter.

This ends Disposition of Grievance TOCI 11-17-000291.

12/29/2017 9:09:51 AM: (a196744) wrote

ALTHOUGH THE EYE DOCTOR DID AUTHORIZATION TINTED LENSES AND NEW GLASSES, EXPERT DIAGNOSIS IS REQUIRED TO DETERMINE THE BEST COURSE OF TREATMENT FOR TO PREVENT ADDITIONAL DAMAGE TO MY EYES.

In your appeal you state the institutional optometrist's assessment is not appropriate concerning your current vision status and you are requesting to be seen by an outside specialist due to your past recent history of vision issues. You further state you are experiencing visual obstructions that are becoming larger and darker and need to see a specialist for preventative care in order to prevent a disaster like 2014 that could have permanent effects on your vision. A review of your medical file indicates you were last seen by Dr. Shoemaker, the institutional Optometrist on 11/29/17 at which time he noted you continued to use your eye drops appropriately and your eye health was stable. He also changed your eyeglass prescription for distance only correction per your request.

While you claim you are in need of further outside evaluation, you have not submitted any recent HSR's about your vision in the past several months. Additionally, you are being followed by Dr. Shoemaker every six months and your next appointment is set for 5/4/18. Should you experience a change in your current visual status, I encourage you to complete an HSR for immediate evaluation or have your dorm officer contact medical, depending on the nature of your problem. In conclusion, the medical and optometry staff are following the ODRC guidelines set forth in 68-MED-01 and 68-MED-14. There will be no further action concerning this appeal at this time.

In your appeal you state you have been attempting to obtain medically approved properly fitting shoes and your last pain was purchased in 2007 while in federal custody.

A review of all relevant information concerning your appeal shows this submission is not considered a grievance and not within the scope of practice for this process. Additionally, it appears that your issue has been addressed. If for some reason you experience difficulty with obtaining this footwear, this would be considered a grievable situation and you may submit the appropriate paperwork for consideration should this occur.

There have been no policy or procedure violations and therefore there will be no further action concerning this appeal.

DUE TO MY HISTORY WITH ESSENTIAL BENIGN HYPERTENSION AND CIRCULATORY PROBLEMS WITH MY FEET, BROKEN VEINS IN MY ANKLES, AND BECAUSE THIS PROBLEM HAS WORSENED WITH MY LEG IN THE LAST YEAR, IT IS UNETHICAL TO WAIT FOR A SERIOUS PROBLEM TO ARISE RATHER THAN PROVIDE FURTHER TESTING FOR DVT. REQUEST ADDITION TESTING AND ULTRA SOUND TO RULE OUT COMPLETELY DVT.

1/22/2018 1:32:24 PM: (Derek Burkhart) wrote

Additional time is needed to investigate your complaint.

1/25/2018 4:25:41 PM: (Derek Burkhart) wrote

This office is in receipt of Notification of Grievance Case TOCI 12-17-000326 submitted by Inmate Alford A-196744. In your grievance you state you were seen by medical on 12/27/17 at NSC for possible DVT in your leg. You state the nurse examined you and claimed is was a Varicose Vein but stated this is how DVT forms. You are requesting an Ultra Sound and Diagnosis by a Physician.

During my investigation, I have reviewed your complaint. I have spoken to HCA Zilles and went over your notes from visits. I have reviewed policy 68-MED-01-Medical Services, policy 68-MED-14 – Specialty Health Care Services, and Administrative Rule 5120-9-31-Inmate Grievance Procedure.

I have found you were seen on 12/27/17 for NSC. The Nurse that completed your assessment noted no signs of DVT thus follow up care was not needed. You were then seen on 1/17/18 and 1/24/18 for flue like symptoms and made no mention of any leg issue. If you have other issues or feel a follow up is necessary, you may submit a Health Service Request. Care was provided per 68-MED-01.

Your grievance is denied – no violation of rule, policy, or law. This office will take no further action concerning this matter.

This ends Disposition of Grievance TOCI 12-17-000326.

Chief Inspector's Office

4/12/2018 5:48:12 PM: (karen stanforth) wrote

Affirmed.

A review of your medical file indicates you were last seen on 3/22/18 and shared your concerns about your leg pain and possible DVT with the ALP. While I understand you concern and fear of a DVT, please know the symptoms you were reporting do not correlate with this issue but instead are related to your lumbar disc disorder which was confirmed on x-ray and which is part of the aging process for many of us.

Based on my review of your treatment plan, the medical staff at TOCI have followed the appropriate ODRC guidelines as set forth in 68-MED-01. I do encourage you to keep in contact with medical so they can monitor for any changes with your CCC illnesses. There will be no further action concerning this appeal at this time.

Karen Stanforth, Assistant Chief Inspector, Medical

Intervertebral lumbar disc disorder with myelopathy, lumbar region

lumbar x-ray showed some degenerative changes without any fractures, discussed that seems to be a chronic, non-progressive problem and not a DVT which he continues to worry about and has been counseled about before, patient voices understanding of all plans, continue otc meds per instructions, exercises previously discussed at prior visit suggested if he has several problems, to try and come in and discuss one at a time

LUMBAR SPINE AP and LAT FINDINGS: There are degenerative changes of the spine. No fracture or subluxation seen. There is osseous demineralization. Soft tissues are grossly unremarkable.

CONCLUSION: Degenerative changes. No fracture.

This office is in receipt of Notification of Grievance Case TOCI1220000901 submitted by Inmate Alford A196744. In your grievance you state that Nurse Webber wasn't concerned with Sinus, respiratory issues, bladder infection, your nose,throat, lungs, Urine test and wouldn't consult with Dr. Porter.

During my investigation I have review your complaint. I have reviewed the response from Monitor Zilles. I have reviewed policy 68-Med-01 Medical Services and Administrative Rule 5120-9-31 - The inmate Grievance Procedure. Offender Alford A196744 I have reviewed your complaint. You were seen by medical Rn.Weber on 12-08-2020. You were assessed amid a variety of concerns which you have listed above Sinus, upper respiratory infections, and many more concerns. Answering questions is part of the assessment process. You were given a urine test which has a negative result thus ruling out a bladder infection. You were issued Tylenol and Claritin. All evidence I see shows a thorough medical assessment and addressing multiple concerns. You were provided a Plan of Care and directed to follow-up with an HSR for further evaluation. Offender Alford with RN being a registered nurses they are trained and experienced when medical consult in necessary with other ALP. Understand that with the Covid-19 pandemic medical visits are limited specifically to what would be considered matters of a emergency nature. Please follow the medical plan provided. Your Grievance is Denied-No violation of law, procedure or process

This office will take no further action concerning this matter.

2/9/2021 1:58:12 PM: (karen stanforth) wrote

Affirmed.

A review of your medical file confirms you were seen by Nurse Weber on 12/8/20 and you reported concerns about a sinus infection and also a bladder infection. Your vital signs were normal, you demonstrated no additional signs of fever or acute illness and your urine test was negative for infection.

You expressed concern over an exacerbation of your chronic sinusitis and denied ay covid-like symptoms of sore throat chills, cough, N/V or loss of taste/smell. You also had no urinary symptoms that would indicate a urinary tract infection. Your plan of care included Acetaminophen 325mg 1-2 tabs PO every 4 hours PRN for fever >101 - 10 tabs given, CTM 1 tab twice daily for 3 days PO PRN for nasal congestion/drainage/sneezing - 6 tabs given, and you were referred to the commissary for OTC comfort medication. You were also given OTC Claratin/Zyrtec for sinus drainage to use with CTM tabs and instructed on Hand Hygiene, Cough etiquette, Increase fluids, Medication side effects. You were also advised to report to the clinic if no improvement and you did submit another HSR and were seen on 12/21/20 by a different nurse and provided the same plan of care along with an appointment to DSC since you experienced no improvement..

Two days later on 12/23/20 you were seen by a physician who reported that you feel that you have an exacerbation of chronic allergic rhinitis. Your pulse ox was normal today at 97% as it was on 12/8/20. Since your illness is allergic in nature the physician stated he would not use antibiotic at this time, but felt you would benefit from continuous nasal steroid spray, (Nasacort 55 mcg per spray, start 2 sprays each nostril QD total 220 mcg daily, back off if improved). Since Nasacort continues to be unavailable at commissary, the doctor made a prior authorization request and you were given chlorpheniramine 8 tabs, Loratidine package of 10 tabs, and the doctor reported that he will email commissary to allow refill of Zyrtec at this time while waiting for the Nasacort approval. You were also advised to report fever/purulent

coryza/worse sinus pain to the clinic if you notice deterioration of your condition with these issues..

Based on this review there will be no further action concerning your treatment as there are no indications you have been treated with deliberate indifference or negligence concerning this issue. The staff have followed the ODRC guidelines set forth in 68-MED-01.

INDEPENDENT MEDICAL REVIEW

October 18, 2024

Pat Horner, Esq. Federal Court Appointed Attorney

Re: Medical Record Review of Mr. Brian Keith Alford

Dear Attorney Horner,

I am writing to provide an expert medical evaluation regarding Mr. Brian Keith Alford, specifically addressing the inquiry into whether the use of incorrect shoes contributed to the development of his peripheral neuropathy. After a thorough review of Mr. Alford's medical history, it is my professional opinion that his peripheral neuropathy is attributable to a vitamin B12 deficiency, most likely stemming from his longstanding hepato-intestinal disease, rather than any issues related to footwear.

Mr. Alford, born in 1957, has a complex medical history that includes hypertension, eye disease, hepatitis/liver disease, carpal tunnel syndrome, cervical spondylosis, benign prostatic hyperplasia (BPH), lumbar disc disorder, and ulnar nerve injury. His medical records reveal a series of health concerns over the years, which I have reviewed in detail.

On January 17, 2018, Mr. Alford visited for headache and congestion, with follow-ups on January 24 and January 29, 2018, where he expressed concerns about deep vein thrombosis (DVT), though no abnormalities were noted. He returned in January 2019 with upper respiratory symptoms, which persisted into March 2019. In May 2019, he reported abdominal pain, and on June 3, 2019, he experienced cracking dry feet with a rash after volunteering for food service during Ramadan, which was treated with over-the-counter measures. On August 23, 2019, he was provided with topical hydrocortisone for lateral epicondylitis. On September 6, 2019, he had respiratory

PAGE 2

RE: BRIAN ALFORD

symptoms with adverse effects from sulfonamides, and on September 9, 2019, he followed up for irritable bowel but denied any concerns.

On November 5, 2019, his blood pressure medication, Coreg, was adjusted. On December 9, 2019, he was given an antacid and seen again on December 30, 2019, for a general medical visit. He denied skin concerns on February 10, 2020, but complained of upper respiratory symptoms. On March 9, 2020, his glucose was 85, and AST was mildly elevated at 47. His blood work and blood pressure were reevaluated on March 24, 2020. He complained of abdominal pain on August 6, 2020.

Significantly, on August 31, 2020, Mr. Alford's B12 level was found to be low at 229, below the normal range of 232 to 1245. On September 2, 2020, he was diagnosed with vitamin B12 deficiency by Dr. Porter, who attributed his bilateral feet numbness to this deficiency. B12 injections were initiated, and by the end of the same month, he had suffered multiple musculoskeletal injuries. By March 19, 2021, he was requesting special boots for his peripheral neuropathy.

To a reasonable degree of medical certainty, Mr. Alford's peripheral neuropathy is due to his B12 deficiency. A lack of B12 damages the myelin sheath that surrounds and protects nerves. Without this protection, nerves cease to function properly, leading to conditions such as peripheral neuropathy. Even mild B12 deficiency can affect the nervous system.

Mr. Alford's B12 deficiency may be attributed to several factors, including his hepatitis and irritable bowel syndrome. Dietary factors, such as insufficient intake of vitamin B12-rich foods, and the use of certain antacids, may also contribute. Conditions affecting the stomach or intestines, such as pernicious anemia, Crohn's disease, celiac disease, or ulcerative colitis, are known to impact B12 absorption.

Based on the available medical evidence and to a reasonable degree of medical certainty, it is my professional opinion that Mr. Alford's peripheral neuropathy is due to his B12 deficiency rather than the use of incorrect shoes. There is no indication in the medical records that shoe wear contributed to his condition.

Please feel free to contact me if you require further clarification or additional information.

Grace be unto you,

Donato J. Borrillo, M.D., J.D., M.S.

DJB/jms

THE UNITED STATES DISTRICT COURT NORTHERN DISTRICT OF OHIO WESTERN DIVISION

Brian Keith Alford,

Case No. 3:21-cv-01123

Plaintiff,

:

: Judge James G. Carr

Robert Zilles, et al.,

v.

Magistrate Judge Darrell A. Clay

.

Defendants.

DECLARATION OF ANITRA BARKER, ASSISTANT HEALTH CARE ADMINISTRATOR

I, Anitra Barker, pursuant to 28 U.S.C. 1746, make this unsworn declaration, under the penalty of perjury and declare that the statements made below are true:

- 1. I have personal knowledge of the information set forth in this unsworn declaration, and I am competent to testify as to the matters stated herein.
- 2. I am currently employed by the Ohio Department of Rehabilitation and Correction ("ODRC") as the Assistant Health Care Administrator of Toledo Correctional Institution (ToCl). I have worked for ODRC since August 1, 1994. I have been the Assistant Health Care Administrator for approximately 8 years.
- 3. As part of my job duties as the Assistant Health Care Administrator, I am the Nursing Scheduler-timekeeping, I schedule, monitor, and approve overtime, I order medical supplies, and items for Advanced Licensed Practitioners as needed, I collate monthly statistics for the medical unit, handle investigations, and am the institutional Medicaid Coordinator. A true and accurate copy of my official job description is attached hereto.
- 4. In 2018, IP Alford was provided with boots which, per the manufacturer, would have been the correct size for IP Alford. IP Alford rejected those boots, claiming that they were too big.
- 5. Thereafter, new boots, which were one width smaller, were ordered for IP Alford. IP Alford accepted those boots as the correct size. A few weeks later, IP Alford attempted to return the

boots, claiming that they were too narrow. Due to institution policy, the boots could not be returned after they were accepted.

I, Anitra Barker, pursuant to 28 U.S.C. § 1746, make this unsworn declaration under penalty of perjury and declare that the foregoing statements are true.

Executed on this 12th day of March, 2025.

Anitra Barker

Assistant Health Care Administrator

Toledo Correctional Institution
